PORTFOLIO: <https://addwin-stephen.netlify.app>

## PROFESSIONAL SUMMARY

---

MCA Information Security student with hands-on experience in cybersecurity, SOC operations, and GRC practices. Actively participate in cybersecurity CTFs and hackathons to strengthen practical security and problem-solving skills.

## EXPERIENCE

---

### Networking & Systems Intern – Forerun Systems Pvt. Ltd.

June 2026 – July 2026

- Installed and configured IP cameras, PoE switches, NVRs, and access control systems for client environments.
- Built and tested desktop systems, diagnosed hardware issues, and performed system validation before delivery.

### Manual Testing Intern – BeaverTech

May 2025 – July 2025

- Performed functional, regression, and exploratory testing of web applications, documenting reproducible defects and validating fixes to improve software quality.

### Cybersecurity Research Intern – Ehackify Cybersecurity Research & Training

Oct 2024

- Conducted cybersecurity research at ERTR Labs, performing threat analysis and security assessments using industry-standard tools.

## PROJECTS

---

### Governance, Risk & Compliance (GRC) Portfolio | ISO 27001, NIST CSF 2.0

Developed a GRC portfolio for a fictional SaaS company featuring security policies, risk assessments, incident response, business continuity, and compliance documentation aligned with ISO/IEC 27001 and NIST CSF 2.0.

### GRC Compliance Gap & Vendor Risk Assessment

Conducted a simulated GRC assessment using selected SOC 2, ISO/IEC 27001:2022 and CIS Controls requirements; performed compliance gap analysis, risk assessment, and third-party vendor risk assessment.

### Hybrid Cloud SIEM & SOC Lab | Microsoft Sentinel, Azure Arc, KQL, SOAR, MITRE ATT&CK

Engineered an enterprise hybrid SOC environment projecting a physical Windows 11 endpoint into Azure via Azure Arc and Azure Monitor Agent (AMA); designed scheduled KQL Analytics rules to detect multi-stage MITRE ATT&CK threats (Brute Force, Persistence), configured SOAR automation rules for incident auto-triage, and conducted visual root-cause investigations using Sentinel's Investigation Graph.

## EDUCATION

---

### Master of Computer Applications (MCA) – SGPA: 9.04 (Sem 2)

2025 – Present

Jain Deemed-to-be University, Bengaluru

### Bachelor of Computer Applications (BCA) – CGPA: 8.3

2022 – 2025

Rajagiri College of Management and Applied Sciences, Kochi

## SKILLS

---

**Security Tools:** Microsoft Sentinel, Splunk, Sysmon, Burp Suite, Wireshark, Nessus

**Programming Languages:** Python, Java

**Cybersecurity & GRC:** MITRE ATT&CK, Risk Assessment, Compliance Gap Analysis, Vendor Risk Assessment, Security Policies, ISO 27001, SOC 2, NIST CSF 2.0, Incident Response

**Networking & Concepts:** TCP/IP, HTTP/HTTPS, OWASP Top 10, Linux Fundamentals, Network Security Monitoring

**Databases & Tools:** KQL, MySQL, Excel, Git, GitHub
